

The System modular devices make it possible to create infinite combination between devices and plates, thanks to a complete range that is able to satisfy all design, functional and installation requirements. Colour and finiture: glossy white, bright and versatile  
The range includes commands, socket- outlets, protection, indicators, connectors and devices for the control, safety and comfort of your home.

| Categorie  | Capăt de apăsare piston seringă | Tip  | Plăcuța de identificare              |
|--|---------------------------------|--|--------------------------------------|
| Culoare  | Alb                             | Descriere  | 1P NO - 10A                          |
| Tensiune   | 250 V                           | Standard   | EN 60669-1                           |
| Rezistența la tensiunea de test                                      | 2000 V la 50 Hz timp de 1 minut | Rezistența izolației   | >5 MOhm                              |
| Borne de cablare   | Conținut                        | Comutator de funcționare prelungit (nr. de modificări)             | 10 poziții 250 V c.a. $\cos\phi=0,6$ |
| Prinderea bornei la tracțiunea cablului                              | > 50 N                          | Capacitate de strângere borne cabluri torsadate (mm <sup>2</sup> ) | min. 0,75 - max. 2x4                 |
| Capacitate de strângere a bornelor cabluri solide (mm <sup>2</sup> ) | min. 0,5 - max. 2x2,5           | Lampă  | Lampă cartuș S6x36 mm                |
| Termo-presiune cu bilă   | 125 °C                          | Tensiune lampă   | 12-24V AC/DC                         |
| Test de încercare cu fir incandescent                                | 850 °C                          | Puterea lămpii   | 2 W                                  |
| Nr. Module DE SISTEM   | 3                               | Material   | Tehnopolimer                         |
| Electrocod   | 0130                            |  |                                      |
